

## Year 12 Chemistry – Assessment Plan – 2025

Students' progress will be informally assessed in a variety of ways including:

- Completion of course work including in-class tasks and homework tasks
- Class Participation – discussions, Q&A, reading
- Group work, oral presentations and research
- Practical work
- Revision tests and topic quizzes

NESA requires schools to submit a school-based assessment mark for each Year 12 candidate in a course. Formal school-based assessment tasks are based on course requirements and components and weightings that contribute to the determination of the final mark for a course.

As such students will also complete the following formal assessment tasks:

Component	Task 1	Task 2	Task 3	Task 4	Weight %
	Practical Investigation	Titration Practical	Depth study Research	Trial Exam	
	Equilibrium and acid reactions	Acid-base reactions	Organic compounds	Full Course
